

What are Essential Oils? _____

How does Applied Zoopharmacognosy work? _____

DO: keep the lid on the essential oil and let them smell it.

DON'T: force a product on an animal as it can cause stress.

Rule of Thumb:

Animals, due to all their hair follicles, have an increased rate and amount of absorption, so **use plenty of carrier oil when applying any oil.**

The three most important things when being cautious:

① _____

② _____

③ _____

The Seed to Seal Promise:

DIY Soothing Skin Gel Recipe

Ingredients

- Approximately 50 mls of water-based gel (aloe vera)
- 5-20 drops of essential oils, such as lavender (max of 5 different oils)

Directions

Whisk together and apply gel to any sensitive skin areas as needed.

Note:

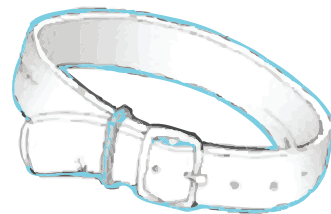

Make sure you collaborate with your animal about which oils!

DIY Collar For Dogs

Ingredients

- 1 cup of water
- 5 drops Lavendar
- 2 drops Citronella
- 1 drop Cedarwood
- 2 drops Geranium

Directions

Mix in a bowl, drop your pet's collar and soak for 5 minutes. Remove from liquid mixture and let dry before placing around dog.

Listen to your animals to make sure they approve of your suggested concoctions.
